CC#21

Circular Letter No. 38

September 18, 1925.

To Supervisors of Schools
and High School Principals.

L adies and Gentlemen:

CHANGE IN HIGH SCHOOL REQUIREMENT
FOR GRADUATION.

But one science is now required for graduation from the General Course. This science must be either Physics or Chemistry.

Students intending to go the college should elect as much science as possible. Girls intending to study for Home Economics instructors should elect Biology and Chemistry.

Yours very truly,

(SIGNED) JUAN B. HUYKE
Commissioner of Education
